Resolution 2024-3 updating the Town's building permit policy and fees. The change to the policy is to include "any person, homeowner, or contractor involved in the damage of Haxtun roadways during the construction or demolition process of the property is liable for the repairs to the roadway. The Haxtun Town Superintendent will evaluate the damage and take the necessary steps for the repair and bill for the damages accordingly." After a brief discussion from the Council about protecting the new streets and the Town's goal to maintain these streets, a motion was made by J. Brammer and seconded by R. Horton to approve Resolution 2024-3. All present voted in favor, motion passed.

Town of Haxtun
Resolution # 2024-3

## A RESOLUTION UPDATING THE TOWN'S BUILDING PERMIT POLICY AND FEES

**WHEREAS**, the Town of Haxtun has the authority to set policy and fees concerning building permits, and

**WHEREAS**, the Town Council previously adopted Resolution # 2019-3 concerning the Town's Building Permit Policy and Fees; and

**WHEREAS**, the Town Council desires to update its Building Permit Policy and Fees to address responsibility for damage to Town rights-of-way during construction projects.

# NOW THEREFORE, BE IT RESOLVED BY THE TOWN COUNCIL OF THE TOWN OF HAXTUN, COLORADO, THAT:

The following list will constitute what and when a building permit is needed:

- 1. The construction or addition of any building including, houses, manufactured homes, garages, sheds, green houses, shelters, fences, pools, sidewalks, driveways, sprinkler systems, patios, placement of carports or shipping containers, or any other type of structure
- 2. Alterations including additions to any structure.
- 3. Remodeling of any structure internal or external, including internal dry wall, counter tops, cabinets etc.
- 4. Replacement of all types of external building materials, including roofing materials, doors, door encasements, windows, window encasements, and all types of siding, etc.
- 5. Any type of concrete or asphalt work or replacement work.
- 6. Any type of fence or fence replacement work.

Because the town has no specific knowledge as to the exact dollar cost and /or the value of all materials that may be used in the project, the use tax collected is considered an estimate. For the purpose of estimating use tax, the Town of Haxtun will base the estimate upon ½ or 50% of the project valuation. In these instances, the town reserves the right to determine use tax on a case by case basis and may request a written cost breakdown. For pre-built structures, the permit fees and use tax will be based on half of the total cost of the structure.

Used materials will not be taxed but must be approved by the town building inspector. A permit fee based on the value of the used materials will be collected at the time of application.

The copy of the building permit received from the town indicates the amount of Town of Haxtun and Phillips County tax that has been paid. In order to avoid paying use tax at the time of building and construction material purchases, a copy of the building permit must be presented to the local retailer.

The building permit fees are to be structured as follows:

Project value \$0-\$1000 \$10.00 \$1000- \$2500 \$25.00 \$2500 and up \$25.00 plus \$5.00 per \$1000

Fees will be paid as well as the use tax before any permit will be issued. No construction will proceed without obtaining a signed copy of the building permit.

The Water Tap Fees for a normal residential/commercial 3/4" tap fee will be \$2000.00. 1" tap and larger includes the tap fee plus the cost of larger pipe and a meter.

The Sewer Tap Fees for a normal residential/commercial 4" tap fee will be \$2000.00. Larger sewer taps will include the tap fee plus cost of additional material.

The Electric Tap Fee for a normal residential/commercial single phase 200 amp service will be \$1000.00. The applicant will be charged time and material for all additional electrical needs above the normal service.

Residential/commercial customers who have an existing overhead electrical service can upgrade to a new single phase 200-amp underground service for a fee of \$500.00 to cover the cost of materials. Labor provided by the Town of Haxtun for installation will be provided at no charge to the customer.

The Utility deposit is set at \$200.00.

Any person, homeowner, or contractor, involved in the damage of Haxtun roadways during the construction or demolition process of the property is liable for the repairs to the roadway. The Haxtun Town Superintendent will evaluate the damage and take the necessary steps for the repair and bill for the damages accordingly.

This Resolution shall become effective upon adoption and Resolution #2019-3 is hereby repealed in its entirety.

The above and foregoing Resolution was, on motion duly made and seconded, adopted on May 6, 2024.

MEAN is asking their member communities for letters of support for a U.S. Department of Energy (DOE) grant application. The application is for a DOE Rural and Municipal Utility Cybersecurity Grant and Technical Assistance Program. If awarded the grant MEAN will be able to offer training, assessments, and improvement roadmaps for MEAN communities. A motion was made by D. Green and seconded by B. Cionek to send a letter of support, all present voted in favor and motion passed.

Rod Salvador returned an Economic Incentive Application for the Salvador Subdivision on Pheasant Run Road. The application is asking for \$99,000 reimbursement for infrastructure improvements. Some of the infrastructure improvements happened in 2011 and the most recent was the 600' of sewer main. The Council would like more information before deciding on the Economic Incentive and a motion was made by J. Brammer and seconded by T. Pope to table the discussion until the next meeting when they could see a more detailed request. All present voted in favor, motion passed.

Clerk Harms has been talking to CIRSA about the property insurance for the Drake Building. CIRSA is seeing a large increase in donated buildings that are in disrepair and are having a lot of discussions internally how to move forward. The building is currently covered under the property policy but there are major exclusions due to the dilapidation predating the Town's ownership. The Town could continue to stay with that policy or choose to exclude or abandon the building until improvements are made and then add to the property policy. Some discussion was held about the building. A motion was made by J. Brammer and seconded by T. Pope to stay with the current policy, all present voted in favor and motion passed.
